

Programming Practice III

Morning

Hardware Hacking

In this morning's session you will:

- Self-organise into TWO groups
- As a group, complete the online MakeyMakey tutorials
- As a group, complete the tutorials in Sunfounder Arduino Kit tutorials
- After completing the tutorials, as individuals, continue developing your game controller prototypes

Afternoon

Sprint Reviews and Team Meetings

In the afternoon session you will:

- Prepare for your sprint review by assembling the prototype and updating the Trello board.
- Sprint reviews will commence at 3pm
- Conduct a meeting with your COMP150 group. In this meeting, you should focus on the:
 - Group name
 - Commercial goals
 - Design goals
 - Management issues
